

Health plans 2020 – 2021

Nuova Plus Extra

Amendments or changes to the Health Plan 2018-2019 are highlighted in **red** and preceded by the caption “New” in order to be identifiable for visually impaired users.

Users with visual impairments who use screen readers (e.g. Jaws) can use the keys CTRL + ALT + direction arrows to read the information found in the tables, or may use the guide on the screen reader accessed using the “hot keys” + F1 F1 (e.g. for Jaws, use Insert + F1 F1) to obtain information on how to read the document.

This document provides a summary of the benefits offered by the insurance policies and the terms of entry for such benefits; **it does not replace the contractual legal source represented by the Policy Terms and Conditions**, which must be consulted prior to subscribing to the benefits in precise acknowledgement of the contractual conditions.

Please note that the plans described herein are **healthcare/personal injury policies**, whose aim is to indemnify the insured parties from expenses that may be incurred to treat or diagnose a presumed or confirmed health condition.
For this reason, **every direct claim or request for reimbursement (including prescriptions) must be accompanied by supporting medical documentation that confirms the diagnosis, or suspected diagnosis, to which the service pertains** (indication of symptoms is not sufficient).

Preventive services are excluded from this clause.

The services described in this prospectus may be used by Policyholders according to different conditions and by the following methods:

- ✓ **Direct/in Network**: at facilities / specialists that are part of the Affiliated Network made available to Uni.C.A. by Previmedical and on authorisation for the agreed service by the Previmedical Operations Centre
- ✓ **Indirect/out of Network**: (or at Affiliated facilities and specialists, but in cases where Policyholders have not followed the required procedures for access to Network services)
- ✓ **At the Public Health Authority**

It is not permitted to mix direct/indirect access; it is not possible to access certain authorised benefits directly and be reimbursed for others accessed indirectly as part of the same claim.

Before accessing healthcare services (**either "direct" or "indirect"**), always consult:

- the detailed **Policy** conditions, paying special attention to any "**exclusions**" (excluded services);
- the "**Policyholder's Guide**" that offers information about methods and conditions for accessing services;
- the final "Insurance Policies: **Interpretations**" section, which provides interpretations relative to certain services shared with the insurer and included at the end of this document

The benefits included in the Health Plans are grouped into 4 categories:

- ✓ **Admissions** (benefits associated with admissions - with or without surgery - in nursing homes, day hospitals or clinics)
- ✓ **Specialists** (consultations, diagnostic assessments and other specialist services)
- ✓ **Additional services** (various other healthcare services)
- ✓ **Preventive services**

The following tables highlight the differences between the two plans (Nuova Plus and Extra); benefits which are the same in both policies are described only once and refer to both plans

NB:

A penalty applies in the case of indirect access to services at affiliated facilities/specialists eligible for direct access: in this case, a cost of 150% of the indirect service cost shall be applied.

During the “transition period”, this surcharge shall not apply to services that cannot already be directly accessed from 01/01/2020

NB:

List of TOP clinics that can be directly accessed for all policies:

a penalty applies in the case of indirect access to services eligibel for direct access

with the application of an excess of 200% of that foreseen for the service in indirect form.

During the “transition period”, this surcharge shall not apply to services that cannot already be directly accessed from 01/01/2020

BENEFITS DURING TREATMENT	Doctors' fees; operating theatre fees; materials and endoprotheses; medicines, diagnostic assessments, physiotherapy and rehabilitative interventions, treatments Accompanying Person (cf. "Accompanying Person" section) Individual nursing care: unlimited	
PRE-TREATMENT BENEFITS	Diagnostic assessments and specialist consultations in the 100 day period.	
POST-TREATMENT BENEFITS	Diagnostic assessments, medications, medical, surgical and nursing services, treatment (including hydrotherapeutic, exclusive of hotel costs) within a 100 day period Physiotherapy and rehabilitation treatments ⁽¹⁾ within a 120 day period	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	In-Network: no daily limits; Out-of-Network: € 300 per day. (does not include expenditure on unnecessary luxuries)	
LIMIT	€ 150,000 per household/year	€ 500,000 per household/year
EXCESS DEDUCTIBLE	In-Network: € 200 Out-of-Network: 10%, minimum € 1500 The conditions on percentage costs for admission to an in-Network care facility also refer to the relative pre and post services even if carried out on an extra-contractual basis	In-Network: € 0 Out-of-Network: 10%, minimum € 1500 The pre- and post-treatment services for an admission to an in-Network care facility are 100% refundable even if carried out on an extra-contractual basis
	A penalty is applicable in the case of indirect admission to affiliated healthcare facilities (including those on the "TOP Clinic List") and with affiliated operating teams (for details, consult the policy).	
NOTES	In the case of transplantation, donor removal expenses incurred are covered PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage Physiotherapy and rehabilitation treatments ⁽¹⁾ : reimbursable only if received exclusively at medical centres equipped with Health Departments - cf. Policy Glossary	

ADMISSIONS (continued)

ADMISSION WITH SURGERY for reconstructive purposes	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS DURING TREATMENT	Admissions expenses following mastectomy or quadrantectomy and relative contralateral adjustment surgery, including psychological support:	
PRE-TREATMENT BENEFITS	Diagnostic assessments and specialist consultations in the 90 day period.	
POST-TREATMENT BENEFITS	Diagnostic assessments, medications, medical, surgical and nursing services, treatment (including hydrotherapeutic, exclusive of hotel costs) within a 90 day period	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	no daily limit (does not include expenditure on unnecessary luxuries)	
LIMIT	€ 5,000 per household/year (sublimit)	
EXCESS DEDUCTIBLE	<p>In-Network: € 1,000 Out-of-Network: 20%, minimum € 1,000</p> <p>The conditions on percentage costs for admission to an in-Network care facility also refer to the relative pre and post services even if carried out on an extra-contractual basis</p> <p>A penalty is applicable in the case of indirect admission to affiliated healthcare facilities (including those on the "TOP Clinic List") and with affiliated operating teams (for details, consult the policy).</p>	
NOTES	<p>Guarantee additional to other admissions coverage</p> <p>PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage</p>	

UNI.C.A. -LIST OF SURGICAL OPERATION LIMITS IN AND OUT OF NETWORK

TYPE OF SURGERY	LIMIT
Ligation and stripping of veins (varicocele included)	€ 3,500
Functional septoplasty, including necessary turbinate procedures	€ 3,500
Reduction and setting procedures of fractures to large bones (femur, humerus, tibia)	€ 9,000
Reduction and setting procedures of fractures to medium bones (clavicle, sternum, patella, radius, ulna, fibula)	€ 6,000
Reduction and setting procedures of fractures to small bones (all other bones)	€ 3,000
Removal of fixation devices (e.g. nails, plates, screws)	€ 3,000
Tonsillectomy/adenotonsillectomy	€ 3,000
Hernias and/or incisional hernia of the abdominal wall	€ 5,000
Haemorrhoidectomy and/or removal of rhagades and/or fistulas and/or rectal prolapse	€ 4,500
Hallux valgus surgery with or without metatarsal-phalangeal realignment, hammer toe, hallux rigidus	€ 4,000
Knee surgery (other than ligaments)	€ 7,000
Operative hysteroscopy	€ 4,000
Ligament reconstruction	€ 8,500
Rotator cuff surgery	€ 7,500
Removal of ovarian cysts	€ 8,500
Thyroidectomy (excluding radical for malignant neoplasm)	€ 10,000
Cholecystectomy	€ 8,500
Surgery for herniated disc and/or vertebral stabilization	€ 11,000
Arthrodesis and/or vertebral stabilisation (any method), including removal of herniated intervertebral disc (any method, including robotic)	€ 14,000
Transurethral resection of the prostate (TURP)	€ 9,000
Radical prostatectomy to treat malignant neoplasm	€ 18,000

TYPE OF SURGERY	LIMIT
Hysterectomy	€ 10,000
Hysterectomy to treat malignant neoplasm (including ovariectomy and lymphadenectomy)	€ 15,000
Hip arthroplasty	€ 20,000
Removal of skin growths (cysts in general, lymphomas and moles) (1)	€ 1,000
Knee arthroplasty	€ 15,000
Dupuytren's Disease, Guyon Syndrome	€ 2,000
Carpal tunnel surgery	€ 1,500
Trigger finger and ulnar nerve entrapment at elbow procedure	€ 2,500
Cataract (with or without IOL) - per eye	€ 2,000
Removal of cysts and benign lesions of the breast (nodulectomy)	€ 3,500
Appendectomy	€ 4,000
Surgery to paranasal, frontal, maxillary sinuses and/or FESS	€ 3,500

NB:

LIMIT applicable to the admission/event only - reimbursement of pre-/post-operative expenses is not included in this limit

Where two of the operations on this list are carried out during the same admission, 100% of the limit is applicable for the main operation (as defined by the surgeon) and 70% for the secondary procedure; any cost is applied once only, on the total overall cost.

(1) Consult the “Insurance Policies: Interpretations” section for cases relative to moles and skin growths

ADMISSIONS (continued)

ADMISSIONS WITHOUT SURGERY Medical Admission (*)	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS DURING TREATMENT	Medical and nursing assistance, specialised medical consulting, treatment, diagnostic examinations, services aimed at recovering health, such as physiotherapy and rehabilitation treatments, medication; Accompanying person (see "Accompanying person" section) Individual nursing care: max 5 days per event / € 50 per day.	
PRE-TREATMENT BENEFITS	Diagnostic assessments and specialist consultations in the 100 day period.	
POST-TREATMENT BENEFITS	Diagnostic assessments, medication, medical, surgical and nursing services, physiotherapy and rehabilitation treatments ⁽¹⁾ , treatments (including hydrotherapeutic, excluding hotel costs) in the 100 day period.	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	In-Network: no daily limits. Out-of-Network: € 300 per day. (does not include expenditure on unnecessary luxuries)	
LIMIT	€ 150,000 per household/year	€ 500,000 per household/year
EXCESS DEDUCTIBLE	In-Network: € 200 Out-of-Network: 10%, minimum € 1500 The conditions on percentage costs for admission to an in-Network care facility also refer to the relative pre and post services even if carried out on an extra-contractual basis	In-Network: € 0 Out-of-Network: 10%, minimum € 1500 The pre- and post-treatment services for an admission to an in-Network care facility are 100% refundable even if carried out on an extra-contractual basis
A penalty is applicable in the case of indirect admission to affiliated healthcare facilities (including those on the "TOP Clinic List") and with affiliated operating teams (for details, consult the policy).		
NOTES	PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage <i>Physiotherapy and rehabilitation treatments⁽¹⁾: reimbursable only if received exclusively at medical centres equipped with Health Departments - cf. Policy Glossary</i> <u>(*) Maximum limit for five days in recovery for a maximum of three occurrences per person per year; after this, the right to compensation does not apply.</u> Furthermore, medical admission is excluded in the case of diagnostic or pre-operative assessments.	

ADMISSIONS (continued)

ADMISSIONS WITHOUT SURGERY for Serious Pathological Events	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS DURING TREATMENT	Medical and nursing assistance, specialised medical consulting, treatment, diagnostic examinations, services aimed at recovering health, such as physiotherapy and rehabilitation treatments, medication; Accompanying person (see "Accompanying person" section) Individual nursing care: max 30 days per event / € 50 per day.	
PRE-TREATMENT BENEFITS	Diagnostic assessments and specialist consultations in the 100 day period.	
POST-TREATMENT BENEFITS	Diagnostic assessments, medication, medical, surgical and nursing services, physiotherapy and rehabilitation treatments ⁽¹⁾ , treatments (including hydrotherapeutic, excluding hotel costs) in the 100 day period.	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	In-Network: no daily limits. Out-of-Network: € 300 per day. (does not include expenditure on unnecessary luxuries)	
LIMIT	€ 150,000 per household/year	€ 500,000 per household/year
EXCESS DEDUCTIBLE	In-Network: € 200 Out-of-Network: 10%, minimum € 1500 The conditions on percentage costs for admission to an in-Network care facility also refer to the relative pre and post services even if carried out on an extra-contractual basis	In-Network: € 0 Out-of-Network: 10%, minimum € 1500 The pre- and post-treatment services for an admission to an in-Network care facility are 100% refundable even if carried out on an extra-contractual basis
A penalty is applicable in the case of indirect admission to affiliated healthcare facilities (including those on the "TOP Clinic List") and with affiliated operating teams (for details, consult the policy).		
NOTES	"List of Serious Pathological Events" attached PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage <i>Physiotherapy and rehabilitation treatments⁽¹⁾: reimbursable only if received exclusively at medical centres equipped with Health Departments - cf. <u>Policy Glossary</u></i>	

LIST OF SERIOUS PATHOLOGICAL EVENTS

- a) Acute myocardial infarction;
- b) Heart or respiratory failure presenting, at the same time, at least two of the following conditions:
 - dyspnea
 - peripheral oedema
 - arrhythmia
 - unstable angina
 - pulmonary stasis or oedema
 - hypoxemia
- c) histologically documented malignant neoplasm;
- d) Complicated diabetes characterised by at least two of the following conditions:
 - torpid ulcers
 - pressure sores
 - neuropathy
 - peripheral vascular pathologies
 - urogenital infections or superinfections
 - retinopathy
 - ketoacidosis
 - diabetic coma
- e) Serious trauma - with or without surgical operation - resulting in immobilisations for more than 40 days. Immobilisation consists of the application of a device that cannot be removed by the patient and/or prohibits the loading of the affected limb;
- f) Second degree burns over at least 20% of the body;
- g) Acute vascular pathology due to ischemic damage or haemorrhage;
- h) Multiple Sclerosis with a significant loss of function (3-4 on the EDSS scale)
- i) Amyotrophic lateral sclerosis (ALS);
- j) Coma;
- k) Paraplegia and/or quadriplegia;
- l) Alzheimer's disease to level 5 or above on the Reisberg scale certified by the UVA (Alzheimer Assessment Unit) of a public neurological facility;
- m) Parkinson's disease to level 3 or above on the Hoehn & Yahr scale, certified by a public neurological facility;
- n) Osteomyelitis;
- o) Serious infections, post-operative or post-trauma infections;
- p) Serious pathological events "similar" in type, event, diagnosis and treatment to those indicated in letters a) to h).

ADMISSIONS (continued)

ADMISSIONS WITHOUT SURGERY for Post-Surgical Rehabilitation	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS DURING TREATMENT	Medical and nursing assistance, specialised medical consulting, treatment, diagnostic examinations, services aimed at recovering health, such as physiotherapy and rehabilitation treatments, medication; Accompanying person (see "Accompanying person" section) Individual nursing care: max 30 days per event / € 50 per day.	
PRE-TREATMENT BENEFITS	Diagnostic assessments and specialist consultations in the 100 day period.	
POST-TREATMENT BENEFITS	Diagnostic assessments, medication, medical, surgical and nursing services, physiotherapy and rehabilitation treatments ⁽¹⁾ , treatments (including hydrotherapeutic, excluding hotel costs) in the 100 day period.	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	In-Network: no daily limits. Out-of-Network: € 300 per day. (does not include expenditure on unnecessary luxuries)	
LIMIT	€ 150,000 per household/year	€ 500,000 per household/year
EXCESS DEDUCTIBLE	In-Network: € 200 Out-of-Network: 10%, minimum € 1500 The conditions on percentage costs for admission to an in-Network care facility also refer to the relative pre and post services even if carried out on an extra-contractual basis	In-Network: € 0 Out-of-Network: 10%, minimum € 1500 The pre- and post-treatment services for an admission to an in-Network care facility are 100% refundable even if carried out on an extra-contractual basis
A penalty is applicable in the case of indirect admission to affiliated healthcare facilities (including those on the "TOP Clinic List") and with affiliated operating teams (for details, consult the policy).		
NOTES	PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage <i>Physiotherapy and rehabilitation treatments⁽¹⁾: reimbursable only if received exclusively at medical centres equipped with Health Departments - cf. Policy Glossary</i> For admissions for Long-Term Post-Surgical Rehabilitation, see the following point.	

ADMISSIONS (continued)

ADMISSIONS WITHOUT SURGERY Long-Term	<u>NUOVA PLUS</u>	<u>EXTRA</u>
CONDITIONS	Long-term admission for rehabilitation for recovery from and/or to improve a physical condition of the Policyholder through medical and/or physiotherapeutic treatments at specialised long-term healthcare facilities (e.g. RSA - residential care homes) or dedicated long-term healthcare departments, in the case of: - admission for surgical operation and post-surgical rehabilitation for the same admission, for a total period of more than 30 days; - admission for a surgical operation and a later admission for post-surgical rehabilitation, for a total period of more than 30 days	
BENEFITS DURING TREATMENT	Medical fees, treatment, diagnostic examinations, services aimed at recovering health, such as physiotherapy and rehabilitation treatments, medication;	
PRE & POST TREATMENT BENEFITS	Not applicable	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	- In-Network: unlimited daily limit (in this case, both the healthcare institution and the medical team must be affiliated) - Out-of-Network: up to a daily limit of € 200.00 for the first 6 months and € 150.00 for any additional months. This provision applies from the 31 st day of the total admission period; until the 30 th day of the total admission period, the provisions relative to hospital fees for non-surgical admission for post-surgical rehabilitation shall apply. (does not include expenditure on unnecessary luxuries)	
LIMIT	€ 150,000 per household/year	€ 500,000 per household/year
EXCESS DEDUCTIBLE	In-Network: € 200 Out-of-Network: 10%, minimum € 1500	In-Network: € 0 Out-of-Network: 10%, minimum € 1500
NOTES	A penalty applies in the case of indirect admission to affiliated healthcare facilities (including those on the "TOP Clinic List") and with affiliated operating teams (for details, consult the policy). PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage If the long-term rehabilitation takes place in healthcare facilities which do not specialise in long-term admission, from the 31 st day of the total period hospital fees shall be reimbursed up to the daily limit of € 100.00, for direct and indirect admissions. In the case that dedicated healthcare facilities are not available: <ul style="list-style-type: none"> • within 50 km from the residence/home of the Policyholder; • or, if the admission for a surgical operation and post-surgical rehabilitation took place in a city other than that of the Policyholder's residence and the Policyholder decides to continue the admission in the same city, within 50 km from the location of the healthcare facility where the admission took place; the provisions pursuant to the "hospital fees" section applicable to long-term admission without surgery shall apply.	

ADMISSIONS (continued)

MAJOR SURGERY	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS DURING TREATMENT	<p>Doctors' fees Operating theatre fees Materials and endoprotheses; medicines, diagnostic assessments, physiotherapy, rehabilitative interventions, treatments Accompanying person (see "Accompanying person" section) Individual nursing care: unlimited</p>	
PRE-TREATMENT BENEFITS	<p>Diagnostic assessments and specialist consultations in the 100 day period.</p>	
POST-TREATMENT BENEFITS	<p>Diagnostic assessments, medications, medical surgical and nursing services, treatment (including hydrotherapeutic, exclusive of hotel costs) within a 100 day period Physiotherapy and rehabilitation treatments⁽¹⁾ within a 120 day period</p>	
CHARGES PER INPATIENT DAY (admissions outside the national health service)	<p>In-Network: no daily limits Out-of-Network: € 300 per day. (does not include expenditure on unnecessary luxuries)</p>	
LIMIT	€ 300,000 per household/year	€ 500,000 per household/year
PERCENTAGE OR FIXED COST NOT COVERED BY INSURANCE	-	
NOTES	<p>Transplants: reimbursement of donors' surgical expenses. List of major surgeries attached</p> <p>PRE services that have already been liquidated relative to the "Specialist Treatments" coverage cannot be reassessed for liquidation relative to the "Admissions" coverage</p> <p><i>Physiotherapy and rehabilitation treatments⁽¹⁾: reimbursable only if received exclusively at medical centres equipped with Health Departments - cf. Policy Glossary</i></p> <p>In the case of "Out-of-Network" services (for repayment) relative to major surgeries performed at one of the TOP Clinics - see the list on page 3 - percentage and fixed costs not covered by insurance will be applied relative to ordinary surgeries, with the relative penalties for indirect access when direct access is possible (for details, consult the policy)</p>	

LIST OF MAJOR SURGICAL PROCEDURES

ESOPHAGEAL SURGERY

- Cervical oesophagus: resection with reconstruction and autologous transplant of a segment of the intestine
- Median oesophagectomy with double or triple access incision (thoracolaparotomy or thoraco-laparoscopic cervicotomy) with intra-thoracic or cervical esophagoplasty and lymphadenectomy
- Esophagogastroplasty, esophagojejunoplasty, esophagocoloplasty
- Closed-thorax oesophagectomy with esophagoplasty at the neck and lymphadenectomy
- Oesophagectomy via thoracoscopy
- Enucleation of leiomyoma of the thoracic oesophagus by traditional route WITH THORACOTOMY
- Azygos-portal disconnections by abdominal and/or transthoracic route for oesophageal varices.

SURGERY OF THE STOMACH, DUODENUM AND SMALL INTESTINE

- Total gastrectomy with lymphadenectomy
- Proximal gastrectomy and subtotal oesophagectomy for carcinoma of the cardia
- Total gastrectomy and distal oesophagectomy for carcinoma of the cardia

COLON SURGERY

- Right hemicolectomy and lymphadenectomy
- Total colectomy with ileorectal anastomosis, with or without ileostomy
- Anterior recto-colic resection and traditional lymphadenectomy
- Recto-colic resection with coloanal anastomosis by traditional route
- Proctocolectomy with ileoanal anastomosis and ileal reservoir, by traditional route
- Amputation of the rectum by abdominoperineal route

LIVER AND BILE DUCT SURGERY

- Liver resections for carcinoma of the principal bile duct
- Portal hypertension surgery:
 - a) Derivation surgery
 - portocaval anastomosis
 - splenorenal anastomosis
 - mesenteric-caval anastomosis
 - b) Devascularization surgery
 - ligation of the varices by thoracic and/or abdominal route
 - transection of the oesophagus by thoracic route
 - transection of the oesophagus by abdominal route
 - azygos-portal disconnection with gastrojejunal anastomosis
 - oesophageal transection with paraesophageal gastric devascularization

PANCREAS SURGERY

- Pancreaticoduodenectomy with or without lymphadenectomy
- Total pancreatectomy with or without lymphadenectomy
- Surgery for functional endocrine tumours of the pancreas and malignant neoplasms of the pancreas

NECK SURGERY

- Total thyroidectomy for malignant neoplasms with or without uni- or bilateral lateral-cervical excavation
- Resections of the trachea and tracheoplasties
- Total pharyngo-laryngo-oesophagectomy with pharyngoplasty for carcinoma of the hypopharynx and the cervical oesophagus

THORACIC SURGERY

- Surgical removal of cysts and tumours of the mediastinum
- Lobectomies, bilobectomies and pneumonectomies
- Pleurectomies and pleuropneumonectomies
- Lobectomies and segmental or atypical resections via thoracoscopy
- Bronchial resections with reimplantation
- Thoracoplasty: parts I and II

HEART SURGERY

- Aortocoronary bypass
- Surgery for congenital heart diseases or malformations in the large blood vessels (which are not excluded by the guarantee)
- Resection of the heart
- Prosthetic valve replacement
- Valvuloplasty

VASCULAR SURGERY

- Surgery to the thoracic and/or abdominal aorta BY THE THORACOABDOMINAL ROUTE
- Surgery to the abdominal aorta and the iliac arteries (uni- or bilateral) BY THE LAPAROTOMIC ROUTE
- Treatment of traumatic lesions to the aorta
- Treatment of traumatic lesions to the arteries of the limbs and neck
- Aortoenteric fistula surgery
- Surgery to the superior or inferior vena cava

NEUROSURGERY

- Craniotomy for vascular malformations (which are not excluded by the guarantee)
- Craniotomy for spontaneous intracerebral haematoma

- Craniotomy for intracerebral haematoma due to vascular malformation
- Craniotomy for sub- and supratentorial intracranial neoplasms
- Craniotomy for endoventricular neoplasms
- Transsphenoidal approach for neoplasms of the hypophyseal region
- Cerebral biopsy by stereotaxic route
- Removal of orbital tumours by intracranial route
- Internal and external ventricular derivation
- Craniotomy for cerebral abscess
- Surgery for herniated cervical disc or cervical myelopathies and radiculopathies by the anterior route
- Surgical treatment of malignant neoplasms of the peripheral nerves

UROLOGY SURGERY

- Extended nephrectomy
- Nephroureterectomy
- Urinary derivation with interposition of the intestine
- Total cystectomy with urinary derivation and neobladder with orthotopic or heterotopic intestinal segment
- Augmentation enterocystoplasty
- Orchiectomy with pelvic and/or lumbo-aortic lymphadenectomy
- Total amputation of the penis and lymphadenectomy with total emasculation, for malignant neoplasm

GYNAECOLOGICAL SURGERY

- Extended vulvectomy with lymphadenectomy
- Radical hysterectomy by abdominal route with lymphadenectomy

EYE SURGERY

- Full-thickness cornea transplant
- Surgery for neoplasm of the eyeball

OTO-RHINO-LARYNGOLOGICAL SURGERY

- Removal of the parotid for malignant neoplasms with excavation
- Radical interventions for malignant neoplasms of the tongue, the floor of the mouth and the tonsils with excavation of ganglia
- Operations to recover function in the VII cranial nerve
- Exeresis of neurinoma of the VIII cranial nerve.
- Petrosectomy

ORTHOPAEDIC SURGERY

- Vertebral arthrodesis by anterior route
- Shoulder replacement
- Osteosynthetic reconstruction of a fracture of the hemipelvis
- Hemipelvectomy
- Invasive reduction and stabilisation of spondylolisthesis
- Invasive treatment of bone tumours
- Major limb amputations exceeding one third

MAXILLOFACIAL SURGERY

- Resection of the upper jaw for neoplasms
- Resection of the lower jaw for neoplasms

PAEDIATRIC SURGERY (THAT IS NOT EXCLUDED BY THE GUARANTEE)

- Cranium bifida with meningoencephalocele.
- Hypersecretive hydrocephalus.
- Cystic and polycystic lung treatment (lobectomy, pneumonectomy).
- Typical children's cysts and tumours of bronchial, enterogenous and nervous origins (sympathoblastoma).
- Congenital atresia of the oesophagus.
- Congenital fistula of the oesophagus.
- Funnel chest and pigeon chest.
- Congenital stenosis of the pylorus.
- Neonatal intestinal occlusion for meconium ileus: resection with primitive anastomosis.
- Simple atresia of the anus: lowering of the perineal abdomen.
- Atresia of the anus with recto-urethral or rectovulvar fistula: lowering of the perineal abdomen.
- Megaureter: resection with reimplantation, resection with substitution of a segment of the intestine.
- Megacolon: Duhamel's or Swenson's abdominoperineal operations.
- Nephrectomy for Wilms' tumour.
- Spina bifida: meningocele or myelomeningocele.

OTHER ITEMS

“Major surgery” is also deemed to include:

- organ transplantation with removal of donor organs;
- admission to an intensive care/resuscitation facility, provided it is for more than 3 days.

ADMISSIONS (continued)

BENEFITS	<p>Treatment and procedures subsequent to malformations or congenital physical defects in newborns, provided they are carried out during the first year of life.</p> <p>In the case that said malformations and/or physical defects are evident as of the first year of birth of the newborn in question and the medical/clinical impossibility of performing a surgical operation during the first year of life can be ascertained and documented, the period during which the operation can be reimbursed is extended to the first ten years of life.</p> <div data-bbox="1713 654 1993 821" style="text-align: right;">  <p>New</p> </div>	

ADDITIONAL SERVICES (continued)

HEALTH ACCOUNT	<u>NUOVA PLUS</u>	<u>EXTRA</u>
<p>BENEFITS/ CONDITIONS</p>	<p>The Health Account is a cumulative account for healthcare purposes aimed at enabling the household to accumulate, for the years following the first insurance year, the financial benefits not used in the insurance year.</p> <p style="text-align: center;">A) Good Health Bonus:</p> <p>If, in the course of the two-year period, the Policyholder demonstrates an average Claims/Contributions ratio for the household of equal to or less than 75% and the prevention protocols of Cassa Uni.C.A. have been followed continuously throughout the insurance period, a bonus of 20% of the contribution paid in the previous year will automatically be credited to the Health Account</p> <p>This amount can be used to increase, in any case up to the limit of the expense, the amount of reimbursements requested by the household and / or to reduce the incidence of any fees to be borne by the insured party (percentage and fixed costs) in the following years.</p> <p style="text-align: center;">B) Health Savings:</p> <p>If in the course of the year the household has not submitted a reimbursement claim for any Health benefit (with the exception of the Cassa Uni.C.A. preventive protocols, which are not included in this calculation), the annual savings may be credited to the Policyholder's Health Account to the amount of 10% of the annual contribution.</p> <p>This amount can be used to increase, in any case up to the limit of the expense, the amount of reimbursements requested by the household and / or to reduce the incidence of any fees to be borne by the insured party (percentage and fixed costs) in the following years.</p>	

ADDITIONAL SERVICES (continued)

COMPENSATION FOR PARENTS HOSPITALISED IN RSA (RESIDENTIAL CARE HOMES)	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS	The insurance provides for the payment of compensation, payable as a lump sum, for medical, health and care expenses incurred by the Policyholder for parents admitted to a public or private Residential Care Home (RSA) due to their being non-self-sufficient or no longer able to remain at home without very serious compromises to their health and independence.	
CONDITIONS	Benefit accessible for family members who in the course of the year have not submitted claims for any health benefits. The compensation shall be paid at such time that the admission to a Residential Care Home (RSA) has endured for at least 12 consecutive months.	
LIMIT	In-Network: Scheme not applicable. Out-of-Network: € 350.00 per person per year.	
EXCESS DEDUCTIBLE	No cost not covered by insurance	

PREVENTIVE SERVICES

PREVENTION	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS	<p>Preventive services are offered directly by Uni.C.A. in the context of periodic Prevention Campaigns (normally every two years). Additionally, under the responsibility of the insurer, the following services are foreseen, which can be used either through the Network or the Previmedical Authorised Centres.</p>	

PREVENTIVE SERVICES (continued)

CHECK-UPS	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS	Possibility to have a completely free visit to a specialist, of any specialisation, once per month, any day of the week	
CONDITIONS	The service is guaranteed also in the case of consultation/check-up, and therefore no medical or specialist prescription is requested during authorisation	
EXCESS DEDUCTIBLE	No cost not covered by insurance	
Notes	<p>The benefits are provided through the Direct regime at affiliated healthcare structures which are part of the Previmedical Network, subject to booking.</p> <p>Only specialist consultations available through the affiliated structure are possible</p>	

PREVENTIVE SERVICES (continued)

INFLUENZA VACCINE	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS	Annual provision of the influenza vaccine	
CONDITIONS	As this is a preventive treatment, no medical or specialist prescription is required	
EXCESS DEDUCTIBLE	No cost not covered by insurance	
Notes	<p>The benefit is provided exclusively under the indirect scheme following the presentation of a copy of the invoice or receipt.</p> <p>WARNING: Before obtaining these provided services, please consult your local primary care unit (ASL) or doctor relative to any possible contraindications or significant collateral effects, based on the age or health of the Policyholder/Insured</p>	

PREVENTIVE SERVICES (continued)

<p>PREVENTION HERPES ZOSTER</p>	<p><u>NUOVA PLUS</u></p>	<p><u>EXTRA</u></p>
<p>BENEFITS</p>	<p>Prevention of Herpes Zoster and complications for all Policyholders aged 55 or older</p>	
<p>CONDITIONS</p>	<p>These services are liquidated as preventive treatments, therefore no medical or specialist prescription is requested during authorisation.</p>	
<p>EXCESS DEDUCTIBLE</p>	<p>Expenses for services provided to the Policyholder are liquidated directly to the Previmedical Network Authorised Centres by the Company, with the application of a fixed cost of € 36.15 per service</p>	
<p>Notes</p>	<p>The benefits are provided through the Direct regime at affiliated healthcare structures which are part of the Previmedical Network, subject to booking.</p> <p>WARNING: Before obtaining these services, please consult your local primary care unit (ASL) or doctor relative to any possible contraindications or significant collateral effects, based on the age or health of the Policyholder/Insured</p>	

PREVENTIVE SERVICES (continued)

PAEDIATRIC CHECK-UP	<u>NUOVA PLUS</u>	<u>EXTRA</u>
BENEFITS	<p>Paediatric specialist check-up visit for minors between 6 months and 6 years of age, under the following conditions:</p> <ul style="list-style-type: none"> • 1 visit between 6 months and 12 months • 1 visit at 4 years • 1 visit at 6 years 	
CONDITIONS	<p>These services are liquidated as preventive treatments, therefore no medical or specialist prescription is requested during authorisation.</p>	
EXCESS DEDUCTIBLE	<p>Expenses for services provided to the Policyholder are liquidated directly to the healthcare structures by the Company, with the application of a fixed cost of € 36.15 per service.</p>	
Notes	<p>This guarantee is provided exclusively through in-network structures which adhere to the Previmedical Network under the Direct regime, subject to booking</p> <p>Guarantee for paediatric medical expenses (up to 14 years of age)</p>	

PREVENTIVE SERVICES (continued)

BENEFITS	<div style="text-align: center;">  <p>New</p> </div> <p>Expenses incurred for the storage and autologous donation of cord stem cells, both in and out of network.</p>	
LIMIT	€ 500 per household/year	
EXCESS DEDUCTIBLE	None	

Insurance policies: Interpretations

Following reports of problems interpreting the policy, received from Members regarding a number of pathologies, enquiries were made with the Insurance Company RBM and the Service Provider Previmedical aimed at clarifying the policy provisions and arriving at agreed interpretations of said provisions.

We are therefore informing the Policyholders of the specifications that derived from this, in the spirit of comparing and sharing the results, which were published with News items in the Info (Informativa) section of the Uni.C.A. website.

MOLES AND SKIN GROWTHS (publication date 09/09/2014)

Dermatological and diagnostic tests must be backed by a medical prescription containing the diagnostic query and/or the diagnosis of suspected mole.

The request for **removal of an unusual or suspicious mole** must be backed by a clinical report containing:

- the site and description of the lesion;
- why it is suspicious (e.g.: asymmetry, irregular edges, varied and uneven colour, dimensions of more than 6 mm and development or growth);
- the methods of the removal procedure (aesthetic procedures such as: diathermocoagulation, laser treatments or other **aesthetic procedures are not reimbursable**);
- the indication of the histological examination.

MENTAL ILLNESSES (publication date 09/09/2014)

specialist consultations (including more than one) and **diagnostic tests** carried out to ascertain the **pathological state of the Policyholder** (mental/psychiatric illness) and backed by a medical prescription containing the diagnostic query and/or the diagnosis are reimbursable. The company still reserves the right to request supplementary medical documentation or the file prepared by the specialist doctor.

Psychotherapy is reimbursable **only and exclusively** for subscribers of the EXTRA policy within the terms provided for in the Health Plan.

MENTAL ILLNESSES (publication date 29/01/2015)

When psychiatric illness has **already been ascertained**, its nature/features are not being reconsidered, and there are merely “check-ups” (e.g.: check on medicine dosage), nothing should as a rule be reimbursed (**not even for the EXTRA guarantee**). For the latter, however, if there is a specific “psychotherapy” guarantee (literally therapy for the treatment of psychiatric illnesses), in the context of the specific guarantee for **psychotherapy** further **specialist consultations** are **reimbursed** with respect to the initial ascertainment of the pathology, providing greater benefit.

Situations in which the psychiatric specialist consultation is not a mere check-up, but serves to understand whether the illness has undergone an change/transformation which entails a different treatment must be assessed case by case: these situations, by definition “border line”, are the most difficult to interpret, and from this perspective producing the specialist report is indispensable for the purpose of assessing whether or not the expense

is reimbursable. These situations include consultations aimed at identifying the most appropriate pharmacological treatment in view of an confirmed pathology.

PAIN OR SYMPTOMS (publication date 09/09/2014)

For **specialist consultations** in view of pain/symptoms (for example lumbosciatic pain, cervical pain) aimed at verifying the **existence of a pathology** a medical prescription containing the diagnostic query and/or the diagnosis is required (prescriptions indicating vague and/or generic symptoms are not authorised). The company still reserves the right to request supplementary medical documentation or the file prepared by the specialist doctor. The “state of the pathology” found makes no difference in deciding whether the service is reimbursable.

Instrumental tests (radiological or ultrasonographic) aimed at **ascertaining the origin of the symptom** (e.g. RMN for lumbosciatic pain) are authorised/reimbursed.

You are reminded that, in all cases, the **prescription must have been prepared by a doctor other than the specialist who performed the service (directly or indirectly)**, or, if the prescribing doctor also carried out the service provided, the same must be certified by transmission of the related file or report containing the diagnosis.

CHECK ON TOLERABILITY OF TREATMENT (publication date 29/01/2015)

Consultations/tests which a Policyholder has done to check the tolerability of specific treatments or medicines **are reimbursable if backed by an indication of the existing or presumed pathology** that is meant to be treated and for which the said prior tolerability check is necessary.

ASTHENIA (publication date 29/01/2015)

Given that asthenia (sense of weakness and tiredness) is a symptomatology, which can be associated with illnesses, but also exist in healthy people, for the most varied reasons, **medical expenses based only on the indication of “asthenia” are not reimbursable**, because our coverage always presupposes indication of the existing or suspected pathology.

LASER THERAPY (publication date 29/01/2015)

Given that laser therapy has several fields of application, including physiotherapy, dermatological treatments and a number of surgical operations, when laser therapy is used to **eliminate/reduce the persistence of pain following a surgical operation after a broken bone**, it has been agreed that this constitutes a pathological state “in an acute form”, and the coverage described on page 24 of the “health plan comparison” is therefore valid.

ORTHOPAEDIC DEVICES (publication date 29/01/2015)

Given that a inconsistency has been found between the indications provided, on the question of orthopaedic and acoustic prosthetics, in the Health Plan Comparison Prospectus and in the policy texts (EXTRA3 Policy): in the Comparison orthopaedic devices are indicated as reimbursable, in the policy text only orthopaedic devices for hernias, **the interpretation most favourable for Policyholders with the EXTRA coverage has been agreed:** all orthopaedic devices will therefore be reimbursed.

ARCH SUPPORTS (publication date 24/03/2015)

Only for **Policyholders with EXTRA coverage**: expenses incurred for **arch supports made to measure in specialised centres are reimbursable on presentation of a medical certificate and technical documentation**; those for arch support footwear are not reimbursable.

HOME VISITS(publication date 24/03/2015)

Apart from the cases expressly provided for (e.g. after major surgery), these are paid for in all **cases in which the person involved cannot leave their home** (an aspect that must be certified by the attending doctor or by the medical structure where the patient was treated) and in the case of **specialist consultations at paediatric age** (children up to 14 years old). Although it is obvious, we remind you that , as is usual, the specialisation of the doctor who provides the consultation must be related to the existing or suspected pathology

OPERATIONS IN OUTPATIENT SURGERIES(publication date 24/03/2015)

When a surgical operation in an outpatient surgery (surgical operation without hospitalisation) is **immediately preceded by a consultation** provided by the same professional who performs the operation, aimed at checking the patient's conditions and the existence of the conditions of admissibility for the operation, this is **part of the said outpatient operation** and cannot be paid separately.

CAESAREAN BIRTH AT THE MOTHER'S REQUEST (publication date 24/03/2015)

From the point of view of payment, a caesarean birth at the mother's request, not resulting from pathologies of the mother or child that would make it necessary, **is reimbursed, applying the less favourable conditions of a physiological birth.**

COM (publication date 09/08/2016)

Complex Outpatient Macro-activity, the activities of which are an organisational method for complex therapeutic and diagnostic services, where several specialists must interact in a coordinated manner. This organisational model regards activities until recently carried out in Day Hospitals and/or in ordinary hospital stays but does not replace the classic outpatient system where single services are provided in a non-complex context. COM activities are not of a surgical kind; they can be prescribed only by specialists of the structure in which they are carried out.

COM therefore enables the provision of services of a diagnostic, therapeutic and rehabilitative nature which do not entail the need for ordinary hospitalisation. However, due to their nature or the complexity required to carry them out, a continual system of medical and nursing assistance must be guaranteed, and this cannot be implemented in an outpatient clinic.

The various COM pathways, in the context of the medical department , can be summarised and grouped together according to the following indications:

- oncological patients in chemotherapy treatment
- patients who need complex diagnostic manoeuvres
- patients who need support therapies
- treatment of patients with acute and chronic/newly-acute pathologies

In payment terms, COM is equivalent to a DH (Day Hospital) when the following are presented: the medical record or hospital discharge form or an equivalent document.

PRENATAL GENETIC TESTING OF FOETAL DNA PRENATAL SAFE (publication date 09/08/2016)

This consists of taking a blood sample from the mother in which the circulating foetal DNA will be sought and analysed directly. With this test, which is 99% accurate, it is possible to identify the main chromosomal anomalies: down syndrome (chromosome 21), Edwards syndrome (chromosome 18), Patau syndrome (chromosome 13), and the anomalies related to chromosomes X and Y. In addition it is possible to identify the foetal gender.

It is a very convincing alternative for pregnancies in which an invasive diagnosis is not recommended owing to the risk of spontaneous abortion; on the contrary, in specific cases where it is necessary to look for the presence of hereditary genetic illnesses, it is still necessary to resort to invasive examinations such as amniocentesis and villocentesis, which are still recommended when the pregnant woman is more than 35 years old.

In payment terms, the following must be respected:

- the service is included among high-level diagnostic services: to be reimbursed, there must be an indication of an **“existing or suspected pathology”**, or for the woman involved to be older than 35 (in line with the rule related to amniocentesis, to which the Prenatal Safe is an alternative).
- In the absence of an existing or suspected pathology, the indication **“search for chromosomal alterations”**, **will be accepted if backed by objective evidence of potential risk.**

INJURY (publication date 09/08/2016)

The insurance policy (ref. “glossary”) defines injury as *“an event due to an unforeseen, violent and external cause, that produces objectively ascertainable bodily harm”*. Therefore, for the event to be classifiable as injury under the terms of the policy **3 simultaneous causes** must occur:

- by **“unforeseen”** is meant: “a result of chance”, “accidental, not voluntary”, “unpredictable or unavoidable”;
- **“violent”** is meant: “intense and capable of damaging” (all slow degenerations, such as certain inflammations and fraying are therefore excluded);
- by **“external”** is meant: an “external cause not inside the body (pre-existing pathological state), or an event caused by an external force”

The injury must be documented by a hospital **Accident & Emergency Department Certificate** - and not by any other alternative documentation - which is a public deed that provides full proof of the circumstances reported in it.

However, the circumstance that the A&E report contains the term “injury” does not determine in and of itself whether the event is reimbursable under the policy terms; to understand whether or not an injury has occurred under the terms of the policy it is necessary to examine what is written on the A&E certificate and in any supplementary medical documentation.

Situations in which pathologies coexist with unforeseen, violent and external events must be assessed case by case, in light of the medical documentation presented.

You are reminded, finally, that the policy provides expressly for cases of exclusion of the insurance cover, in the case of injury, when the circumstances specified in the relevant section (**Services excluded**) occur.

Some examples of events that can be **defined as injuries** under the terms of the policy are listed below:

- The A&E certificate reports: "Skiing accident with dislocation of the left shoulder and contusions"
- On a bicycle, crossing a junction with a green traffic light; from the orthogonal (perpendicular) road a car arrives which does not stop at the red light and hits me, injuring me
- An object falls on me accidentally (without having caused it to fall) and injures me

Some examples of events that **CANNOT** be defined as injuries under the terms of the policy are listed below:

- Domestic accident, but the A&E certificate also specifies: "in summer episode of lumbar pain treated with deltacortene, last week following exertion, reappearance of lumbar pain treated with bentelan. Today reappearance of pain while reducing assumption of bentelan"
- Injury incurred by road accident caused by drink driving
- The A&E certificate states "Lumbar pain caused by lifting a bag"
- The A&E certificate states "non-traumatic shoulder pain"
- The A&E certificate notes that "the lumbar pain was accentuated while getting out of the car" and that the patient is "already affected by slipped disc L4-L5 left (diagnosed by magnetic resonance)"; the diagnosis is lumbar pain.

REIMBURSEMENT OF PHYSIOTHERAPY EXPENSES (publication date 14/11/2016), update on 25/01/2018

Regulatory references (for simplicity, referred to the New Plus Plan):

1) Glossary: physiotherapy and rehabilitation treatments: **physical and rehabilitative medical services provided by a doctor or medical professional with a degree in physiotherapy or an equivalent qualification recognised in Italy, exclusively provided at medical centres**, aimed at enabling recovery of one or more organs or an apparatus affected by disease or injury indemnifiable under the terms of the policy. In any case, all services aimed at treating problems of an aesthetic nature must be excluded from the present coverage, as well as services carried out with instruments that are mainly used in the context of aesthetic medicine.

2) Policy text: art 2.4 specialist, out-of-hospital and/or outpatient services section point D: physiotherapy:

PHYSIOTHERAPY

*The Company reimburses, up to the amount of € 1,400.00 per household and per year, **expenses incurred for physiotherapy, exclusively at Medical Centres, provided by a specialist doctor with a degree in physiotherapy or an equivalent qualification recognised in Italy, accompanied by a prescription from a specialist doctor indicating the rehabilitation treatment plan, following:***

- Injury, documented by hospital accident and emergency certificate, which occurred within 24 months prior to performance of the physiotherapy;
- stroke;

- neoplasms;
- degenerative neurological and homeoplastic forms; by way of example: multiple sclerosis, amyotrophic lateral sclerosis (ALS) and all chronic neurological forms due to degenerative processes affecting the central nervous system.
- neuromyopathic forms: mixed pathological forms affecting the neuromuscular system;
- heart surgery, thoracic surgery and amputation of limbs.

Only in cases in which there is a documented impossibility of accessing a Medical Centre, invoices issued by the professional who provided the services can be accepted (in any case, the professional must have a degree in physiotherapy or an equivalent qualification recognised in Italy), accompanied by a prescription from a specialist doctor indicating the rehabilitation treatment plan.

The services listed above are reimbursed against a medical or specialist prescription and with the application of:

- *an excess of € 40.00 per treatment cycle if received in affiliated healthcare structures;*
- *an uninsured percentage of 20%, with a minimum of € 60.00 per treatment cycle if not received in affiliated healthcare structures;*
- *an uninsured percentage of 30%, with a minimum of € 90.00 per treatment cycle, if received in affiliated healthcare structures without activating the direct form (as of 01 May 2018);*
- *an uninsured percentage of 40%, with a minimum of € 120.00 per treatment cycle, if received in affiliated healthcare structures on the “TOP Clinic List” without activating the direct form (as of 01 May 2018).*

For the purposes of the application of a single uninsured percentage or excess, the request for reimbursement must be presented by the Insured party at the end of the treatment cycle.

In any case, coverage of therapies received in fitness or beauty centres is excluded.

Physiotherapy and rehabilitation treatments are also reimbursable in the context of post-hospitalisation expenses, in accordance with the provisions of the relevant policy section (art. 2.3 Admissions, letter A).

3) Healthcare plan summary prospectus – physiotherapy

4) SINGLE_Previmedical_Direct and Indirect Policyholder's Guide (page 2/30): *“to be able to carry out physiotherapy and rehabilitation treatments, intending the physical and rehabilitative medicine services aimed at enabling the recovery of one or more organs or an apparatus affected by disease or injury indemnifiable under the terms of the policy, it is necessary to make use of doctors or medical professionals with a degree in physiotherapy or an equivalent qualification recognised in Italy. The said services must be provided exclusively at Medical Centres, with a Medical Administration Office”.*

From the set of rules presented above, the following application follows, in keeping with the indication contained in the “glossary”, also aimed at clarifying the impact of the provisions included in the policy texts and in the Pre-medical Policyholder's Guide:

- **physical and rehabilitative medicine services provided by a doctor specialised in the field in question, or by a doctor who also has a degree**

in physiotherapy or an equivalent qualification recognised in Italy, or by a professional who has a degree in physiotherapy or an equivalent qualification recognised in Italy, provided that the services are, in this latter case, carried out at medical centres are reimbursable.

In other words:

- physiotherapy services provided by a specialised doctor are reimbursable even if they are not carried out at medical centres
- physiotherapy services provided by a physiotherapist are reimbursable only if carried out at medical centres, with a medical administration office (controlled therefore by a doctor).

The case of a service at home constitutes an exception to this last principle, in accordance with the following rule: *“Only in cases in which there is a documented impossibility of accessing a Medical Centre, invoices issued by the professional who provided the services can be accepted (in any case, the professional must have a degree in physiotherapy or an equivalent qualification recognised in Italy), accompanied by a prescription from a specialist doctor indicating the rehabilitation treatment plan.”*

In other words, if there is documentation that accessing a medical centre is impossible (on the basis of a prior medical declaration issued by a doctor other than the one that performs the service) , reimbursement of the service carried out by a physiotherapist will be authorised.
