

GUIDE FOR THE POLICYHOLDER

- 2021 PREVENTION CAMPAIGN -

Uni.C.A. has launched the Prevention Campaign which includes, for the year 2021, a free check-up in favour of its members.

The Campaign will be structured into a single phase relating to the delivery of laboratory tests specified in the table below (cf. Protocol 1). It can be carried out in the following period: **20 September 2021 - 31 January 2022**.

The reservation can be made **by the 31.12.2021**, with no possibility of extensions.

As an element of **novelty**, this initiative also includes the **Sars-Cov-2 serological test**, aimed at detecting the presence of antibodies related to the virus. This test can be undertaken simultaneously with the other laboratory tests (if possible, at the same healthcare facility) or separately, within the above-mentioned validity of the Campaign and with the same deadline for reservations.

The prevention program provides for the delivery of the following protocols:

Protocol 1 "laboratory tests"

Laboratory Tests	Man < 40 years	Woman <50 years	Man >= 40 - <50 years	Woman >= 50 years	Man >=50 Years
Complete blood count with Leukocyte formula	X	X	X	X	X
Platelets	X	X	X	X	X
ESR	X	X	X	X	X
Creatinine	X	X	X	X	X
Complete Urine Examination	X	X	X	X	X
Total Protein	X	X	X	X	X
Bilirubin, Fractionated	X	X	X	X	X
ALT	X	X	X	X	X
AST	X	X	X	X	X
Gamma-GT	X	X	X	X	X
Serum Iron		X		X	
Glucose	X	X	X	X	X
Total Cholesterol	X	X	X	X	X
HDL Cholesterol	X	X	X	X	X
LDL Cholesterol	X	X	X	X	X
Triglycerides	X	X	X	X	X
Fecal occult blood test				X	X
PSA			X		X
Pap-test		X		X	

Protocol 2 "Serological test"

Serological test	Man < 40 years	Woman <50 years	Man >= 40 - <50 years	Woman >= 50 years	Man >=50 Years
Sars-Cov-2 serological test	X	X	X	X	X

Requirements for access to health services

The beneficiaries of the check-up (Protocol 1) are the policyholders in service, exodus workers or in retirement, with the exclusion of employees and retired people who have the check-up guarantee already included in the policy (FVP executives, SVP, EVP & above and their spouses/cohabitants more uxorio included in coverage).

As for the serological test (Protocol 2), it is dedicated to all policyholders in service, exodus workers or in retirement without any distinction with respect to the type of subscribed policy.

The access to Protocol 1 and Protocol 2 is also guaranteed to spouses/cohabitants more uxorio included in the health coverage of all policyholders who are beneficiaries of the two initiatives or only of the second, as long as they are also employees or exodus workers or retirees of the Group or of the external companies belonging to Uni. C.A.

See below a summary of the above description:

Access to the protocol	Employees/exodus workers policyholders of Nuova Plus or Extra and Retirees (and their spouses/cohabitants more uxorio included in the policy provided they are employees, exodus workers, retirees of the Group or of the Companies adhering to Uni.C.A.)	Employees/exodus workers policyholders of Extra4 or higher policy (Executives FVP, SVP, EVP & above) (and their spouses/cohabitants more uxorio included in the policy provided they are employees, exodus workers, retirees of the Group or of the Companies adhering to Uni.C.A.)
Protocol 1	YES	NO
Protocol 2	YES	YES

Both protocols can be undertaken only once during the period of validity of the Campaign.

ACCESS mode to the health services:

In order to carry out the health services contained in the 2021 prevention protocols, the Patients will have to:

1. **Verify they meet all the requirements** for participation to the Prevention initiative (see previous paragraph and the Communication from the Director published on the Uni.C.A. website. www.unica.unicredit.it - sezione News.)
2. **Identify the Healthcare Facility of the Previmedical Network dedicated to the initiative using the facility search function available within your own personal area of the Previmedical website:**
 - a) **if Employees in service**, through My UniCredit > My Workspace > Welfare UniCredit > Uni.C.A. (icon in the top “red bar”) > Il tuo piano sanitario > **Prevenzione > Cerca Strutture;**
 - b) **for all**, through www.unica.previmedical.it - Area Iscritti > **Prevenzione > Cerca Strutture;**
 - c) in case of no access to the online personal area, exclusively for retired, exodus workers or long absent personnel, it will be possible to request the pre-activation by contacting the Contact Center on 800.901.223 (select 2, option 2).
3. **Contact the Healthcare Facility directly** in order to book the date and time of the service.

Patients must inform the Healthcare Facility that they wish to participate to the 2021 Prevention Campaign of **Uni.C.A.** Cassa di Assistenza per il personale del Gruppo UniCredit, managed through Previmedical, and indicate the chosen protocol.

4. **Patients who are entitled to both protocols** must submit a pre-activation request for each protocol, i.e. one request for laboratory tests and one request for a serological test even when the protocols are undertaken at the same health facility in the same date and time of appointment.
5. See below the instructions for the pre-activation request:
 - a) **if Employees in service**, through My UniCredit > My Workspace > Welfare UniCredit > Uni.C.A. (icon in the top “red bar”) > Il tuo piano sanitario > Prevenzione > Cerca Strutture;
 - b) **for all**, through www.unica.previmedical.it - Area Iscritti > Prevenzione > Cerca Strutture;
 - c) in case of no access to the online personal area, exclusively for retired, exodus workers or long absent personnel, it will be possible to request the pre-activation by contacting the Contact Center on 800.901.223 (select 2, option 2).
6. **In case the Patient is unable to go for the prevention protocol after having settled the appointment date and requested the pre-activation**, he can request cancellation at least 3 days before the scheduled date; this can be done by opening a ticket (so-called Form Mail) in the online Personal Area or by contacting the **Contact Center on 800.901.223**.

We inform you that the variation of the booking will be allowed **for a total of 2 times at a maximum**; if the three days notice is not respected, the Patient may request the change of the appointment **only once**.

Authorization

The Contact Center will send the authorization for the execution of the protocols to the chosen Healthcare Facility and to the Patient.

The Healthcare Facility:

- **It will provide for the services** contained in the Patient's protocol and previously authorized by the Previmedical Operations Center;
- **It will perform the necessary activities to provide the Patient with useful elements to identify the cardiovascular risk class to which he belongs, as defined in the "Progetto Cuore" drawn up by the Italian Ministry of Health.** Progetto Cuore is a program of epidemiology and prevention of brain and cardiovascular diseases aimed at monitoring the frequency of these diseases and the risk factors related to them in our country and to provide useful tools to prevent them. For this purpose, it is sufficient to fill in a simple questionnaire aimed at investigating the possible risk factors and their extent in all interested parties; together with some variables (age, sex and smoking habits), some haematochemical parameters must be also known such as blood pressure (with or without concomitant therapy), the total cholesterol value and its "protective" HDL fraction. The analysis will generate a score corresponding to a percentage of risk of developing cardiovascular events in the following 10 years. To calculate cardiovascular risk: <http://www.cuore.iss.it/valutazione/calc-rischio>
- **It will deliver the report of the laboratory tests** executed to the Patient;
- In relation to the Sars-Cov-2 serological test, **it will acquire the consent from the interested parties for the treatment, in anonymous and aggregate form, of the test results for the purpose of preparing statistical data that will be transmitted to Previmedical.**
